

L

Loving

We believe that Love is an action and Love has the power to change lives. First and foremost this means cultivating a sense of autistic self-love.

O

Optimistic

We believe that things can and WILL change to a society that is accepting of all neurodiverse individuals.

V

Vulnerable

We believe that the power to change the world comes from being vulnerable, opening up your heart and allowing yourself to speak the truth.

E

Educating

We believe that the only way to change the current perception of autism is to educate others on what being autistic really means. This means we listen to autistic individuals FIRST.

&

A

Accepting

We believe that acceptance matters. All people deserve a place to belong in this world and a place to develop meaningful connections with others.

U

Unifying

We believe that people should not be divided by the color of their skin, their sexual orientation or by their unique neurodiverse characteristics. We are all in this together.

T

Transformative

We believe that by unifying and sharing our message of hope we can transform the negative narrative surrounding autism and replace it with a message of hope.

I

Innovative

We believe in doing things differently. Our conference speakers are mainly autistic and we always pay a fair wage (there are no "token" autistics here!)

S

Sincere

We believe that each person sharing the label of autism has their own unique story, their own truth and their own personalization of the diagnosis. We do not reduce anyone to a label.

M

Motivational

We believe that the work we do has value, not because we profit from it but because YOU do. We are giving life, community, value, self-love and recognition back to autistic individuals...join us as we change the world together!
