

The Family Guidance & Therapy Center of Southern California is a private practice with two locations in San Diego, Orange County and Petaluma. We are a value-centered practice where meaningful connections and growth are at our core. We know that this starts with our employees. Clinicians employed by FGTC understand that love and relationships are central to the human experience. For mental health clinicians, we function like a private practice, but we do all the work for you. Our admin team takes care of your scheduling, billing, and all your insurance paperwork so that you can do what you love, client centered care.
